

# Assignment 2

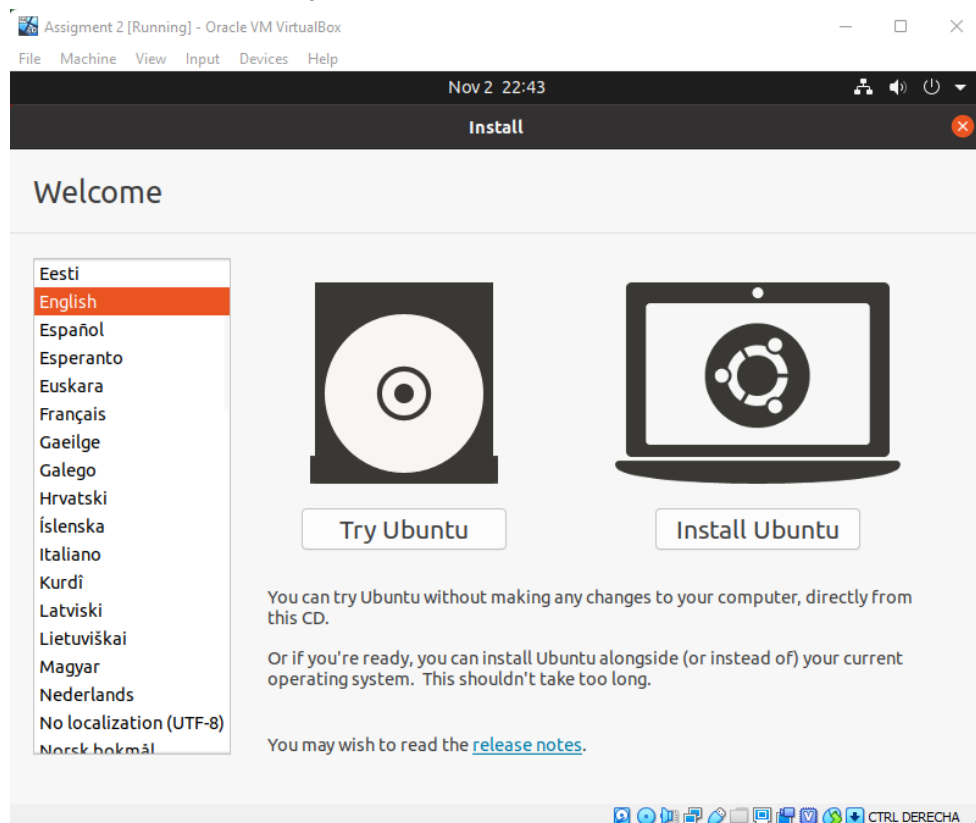

First of all , this is a snapshot to show how I took 50 GB from the disk for this work, 50 GB , that is for 25 for Windows 10 and 25 Gb for Ubuntu.

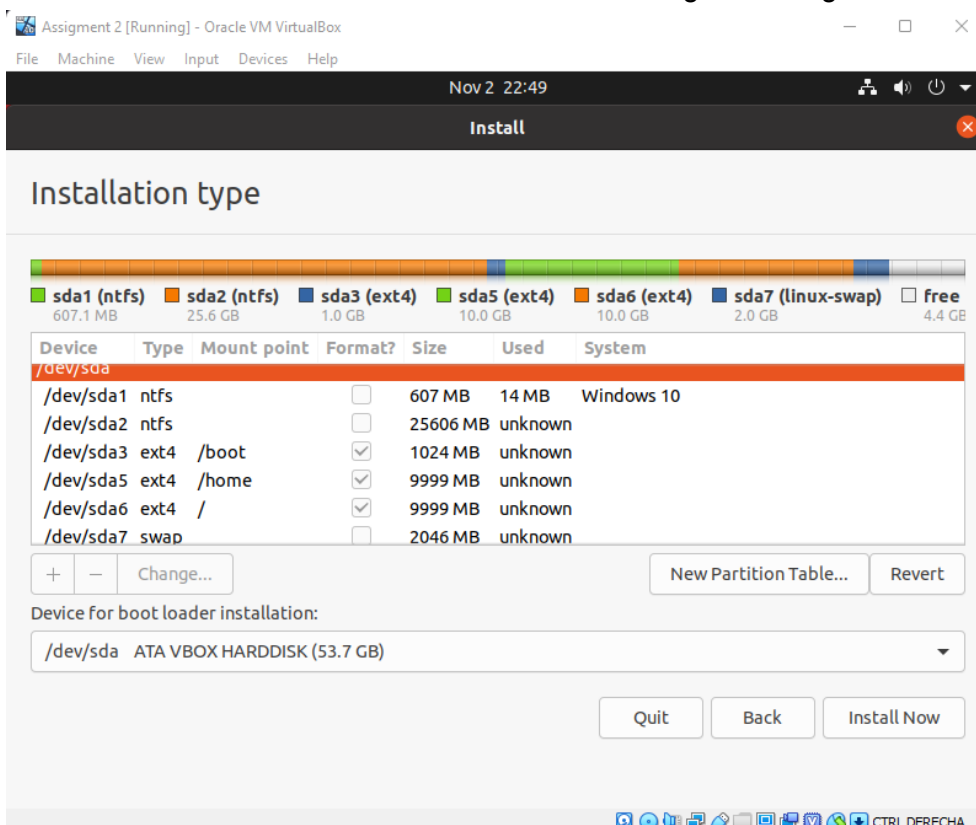

This one is from when i start making the partitions on Windows 10, like i say in the last screenshot i chose 25 and 25 for each one but it's just for show the way it's build.

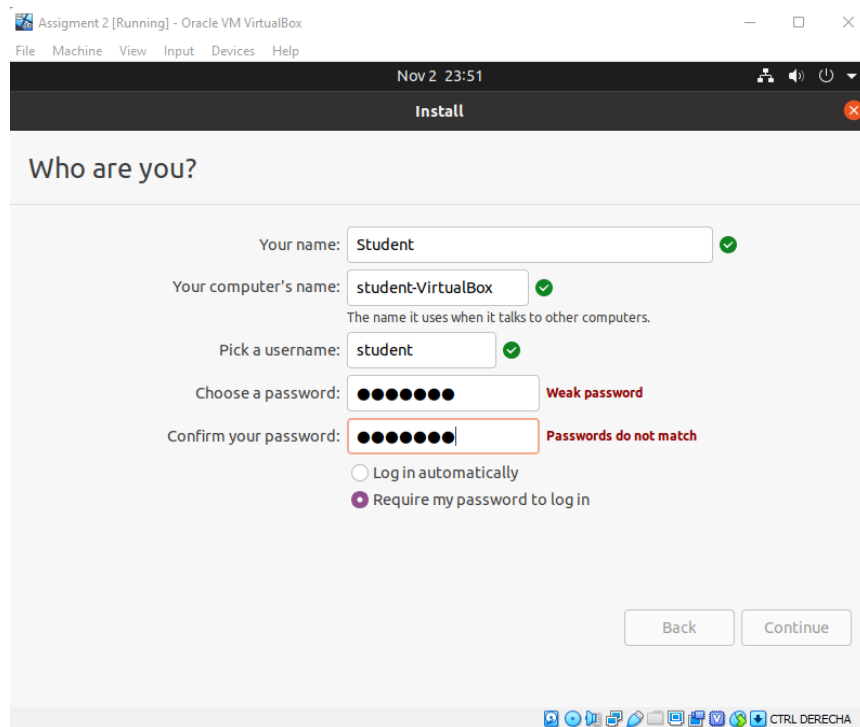

This is screenshot is for show that its me that is making this work, like is explained in the statement, just for know that it's me tha that do this

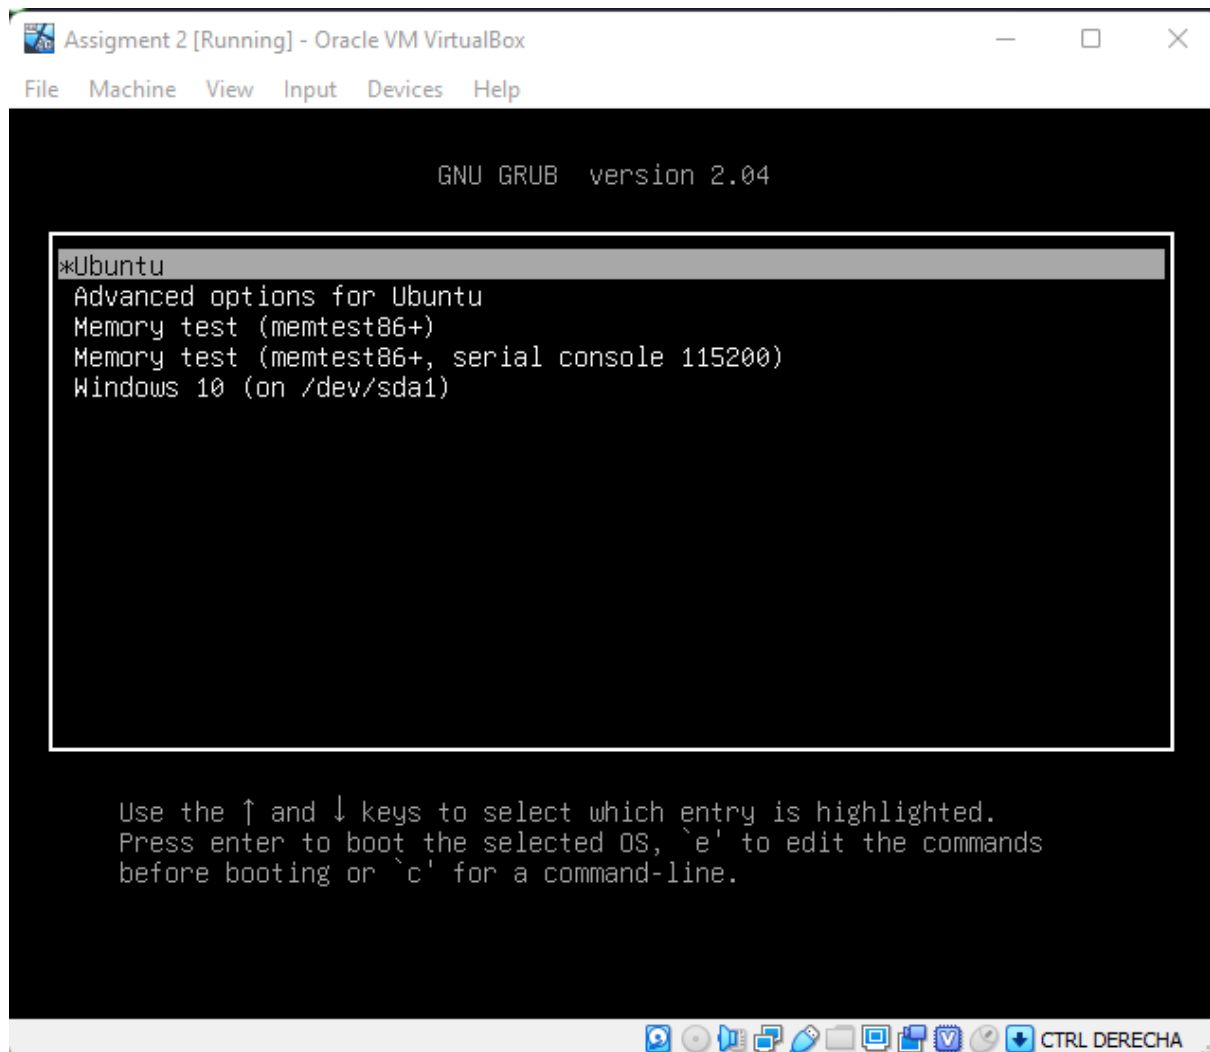

The last one is for evince that i do with english settings

And this one is for point out the partitions on ubuntu, and the screen shot that is down is for show you that is me that do this like in windows

this is the menu that i receive from the installation of the 2 OS
